

## Digital Wildlife Surveillance Systems

Faunatech has been designing, building and deploying state of the art wildlife surveillance cameras for over 20 years. Our first models were based on 35mm film cameras and VHS video recorders. Today we compliment our own designs with a select range of leading brand trail cameras, limited to models with proven reliability & in the field performance.

*Faunatech- your one stop shop for camera advice, supply, custom design, field consultation and repair.*

### BuckEye Cam Wireless Surveillance / Trail Cameras

BuckEye Cam wireless cameras offer great flexibility

Choose between (a) stand alone camera mode, (b) telco-independent point to point wireless transfer mode, or (c) link with Telstra mobile network in cellular mode, for up to 254 cameras on a single SIM card.
